Signature of Notary _____ My Commission Expires: _____

GUIDELINES FOR APPLICATION
DO NOT RETURN THIS PAGE WITH YOUR APPLICATION

GENERAL INSTRUCTIONS

Applicants for Electrical License should make themselves familiar with The Electrical License Act and the Rules and Regulations. The application must be completed and signed by the applicant. An application is not considered complete and will not be processed until all items have been submitted as required. All information provided must be typed or legibly printed in ink. Attachments must be submitted on separate pieces of single-sided, 8½" x 11" paper. Please use a paperclip to fasten all pages together, with the check or money order on top. **Do not use staples.**

Completion

1. Your application must be complete. Check the box at the top right hand corner of the application for the license for which you are applying.
2. Your signature and "Affidavit of Lawful Presence" must be notarized.
3. Work history must be completed for all types of electrical license. Provide a complete work history with all blanks filled out. If a company that you have worked for is out of business, state so on the form. (You may duplicate the work history form as many times as is necessary to be complete.)
4. Experience affidavits must be provided and signed by the employer(s). Any non-employer must provide information describing how he has knowledge that you worked those hours. Making a false statement in the application for a license may result in suspension, revocation, and/or prosecution for perjury. (You may duplicate the affidavit of experience form as many times as is necessary to be complete.)

Experience

5. Oklahoma residents must have been registered as an apprentice to accumulate the requisite hours for a Residential Journeyman or Unlimited Journeyman license.
6. Out-of-state residents must have completed similar experience requirements and include a front and back copy of apprenticeship registrations or all government issued electrical license(s).
7. Utility electrical work is not counted as experience. Education can only count a maximum of 2000 hours.
8. To obtain educational credit you must present transcripts, classroom hours attended, grades, and certificates of approved course(s).
9. You may be asked to provide tax records or a social security earnings report if hours are irregular or in cases where the experience was obtained from companies that are now out of business.

Fees

10. Make sure you include a check for the proper amount of license fees and the non-refundable processing fee.

Reciprocity

11. Please check with your state to determine if there is a Reciprocal Journeyman Electrician License Agreement between Oklahoma and the state in which you are currently licensed. A list of the states with which the CIB has a Reciprocity Agreement can be found on the CIB website (www.ok.gov/cib).
12. Reciprocal license can NOT be a 'grandfathered license'.
13. You must have had a license a minimum of one year to reciprocate.
14. The application including 'Work History' must be completed. Only the 'Affidavit of Experience' may be omitted.
15. If your address changes after you submit your application, notify CIB in writing. The Electrical Licensing Unit of the Construction Industries Board works very hard to process your application in a timely manner. Please do not call to check the status of your application. You will be notified in writing once your application has been reviewed.

INSTRUCTIONS TO CERTIFIER VERIFYING EXAMINEE’S EXPERIENCE

The examinee named on this form is required to furnish one or more certificates in support of electrical construction experience shown on his/her application. The examinee, therefore, is requesting you to certify as to your knowledge of his/her experience.

All statements made on behalf of an examinee’s experience in the classification cited on this form shall be verified by a qualified and responsible person, that is a licensed contractor employer or a qualified representative of an electrical trade facility (Career Tech, IBEW, IEC, ABC, etc.), who has DIRECT KNOWLEDGE of the examinee’s qualifications and capacity to become a licensed journeyman or contractor. The qualified and responsible person must certify that the examinee demonstrates a level of knowledge and skill expected of a journeyman or contractor in the classification for which application is being made.

The certifier should include, but not limited to, discussion of the examinee’s knowledge of services and panel board installations, grounding applications, feeder and branch circuits, transformer installations, motor control applications, fixture installations and hazardous applications.

Your cooperation is earnestly solicited so that the Construction Industries Board can determine whether an applicant has had the experience necessary to become a capable and qualified electrical contractor or journeyman electrician.

Any person who knowingly procures or offers any false or forged instrument to be filed, registered, or recorded in any public office, within this state, which instrument, if genuine, might be filed, or registered, or recorded under any law of the United States or of the law of the state (Title 21, Section 463), is guilty of a felony.

DO NOT SEND THIS FORM TO THE CONSTRUCTION INDUSTRIES BOARD. RETURN IT TO THE EXAMINEE IN ORDER THAT HE/SHE MAY ATTACH IT TO HIS/HER APPLICATION.
