

OKLAHOMA CONSTRUCTION INDUSTRIES BOARD

Schools approved by the Plumbing Committee

The following is a list of schools that are, or have, provided plumbing programs approved by the Committee to substitute as experience per OAC 158:30-9-1. This list is not intended to be an endorsement or recommendation of any school or program but is for informational purposes only. This list can be revised at any time and may not be exhaustive of all approvals. Before taking action to enroll in any school or program, you should contact the specific school and verify the approved plumbing programs and then confirm the program approval and substitution rate with the CIB Plumbing Division.
