

## OKLAHOMA CONSTRUCTION INDUSTRIES BOARD Schools approved by the Mechanical Committee

Completion of an approved education program consisting of 1000 hours or more equals 2 years.  
Completion of an approved education program consisting of 500 hours or more equals 1 year, and fewer hours substitutes as described in OAC 158:50:9-1.

The following is a list of schools that are, or have, provided mechanical programs approved by the Committee to substitute as experience per OAC 158:50-9-1. This list is not intended to be an endorsement or recommendation of any school or program but is for informational purposes only. This list can be revised at any time and may not be exhaustive of all approvals. Before taking action to enroll in any school or program, you should contact the specific school and verify the approved mechanical programs and then confirm the program approval and substitution rate with the CIB Mechanical Division.

Americare One Source .....	Oklahoma City, OK
